

Analyzing ELI FAST/TIER Benchmark Data

SEPTEMBER 23, 2014

8:00-11:30am*

FEBRUARY 3, 2015

8:00-11:30am*

MAY 5, 2015

8:00-11:30am*

INSTRUCTORS: Mary Beilke, Literacy/MTSS Consultant; Dr. Cindy Lewis, Literacy Coordinator; Karinne Tharaldson Jones, MTSS Coordinator.

CONTENT: During this 3 day workshop, the conversations which began at C4K's Early Literacy Implementation trainings held over the summer will be extended. All participants will strengthen their understanding of how the use of universal screeners supports the components of a district's core reading block (phonemic awareness, phonics, fluency, comprehension and vocabulary) by alerting educators, in a timely fashion, to students who are at-risk of falling behind their peers on the reading trajectory. Additionally, time will be provided in each session for districts to use their FAST/TIER data, in conjunction with facilitated conversations, to begin the process of making system/instructional decisions.

LOCATION: Mississippi Bend AEA, 729 21st Street, Bettendorf, Iowa

*Note: Content will be covered in the morning. Districts may *choose* to stay at the AEA in the afternoon and work/collaborate/plan. AEA consultants will be present to provide assistance as needed.
