

School technology Committee 9-14-2014 (10:00-11:00)

Attendance: Joy huffman, Joe Coon, Tom Thompson, Teresa Stabler, Julie Larson, and Derek Casello.

In the collaborative space people enjoy the ability to log into the phones to get there voicemails. Door will be hung on Monday. There will be four tvs with chrome cast and apple tv. Zoom is working will.

You have to be trained in order to use the rooms. Ed will decide when the trainings are going to be scheduled.

Wireless Raps in school-Some school have very restricted wireless networks. Taking a remote access point in Lourds and Davenport schools. The password to login wouldn't be Missbend9. You have to log in with your username and password. (the same that you log onto your computer with). Trying to decrease the number of ink jet printers in each school. We are only going to have ONE printer in each school. We will be able to track how much each user is printer.

Moving to google: Spam issues. Will go away once we move fully to google. Julie really like to combination for Doc and gmail. People might have an issue with Tags. People need to know about all mail and how to search. How do I make a distribution list? Sharing of calendars. How to just from gmail to calendar? For people that have never used google, they just need to know the basics.

Calendars for conferences rooms will work just how they currently work.

When we switch Folders will turn into tags.

Creating a sub committee to write a recommendation on switching to google.

Julie Larson had create a site with a helpful self guide training once we switch to google. If they use it to the fullest of the ability we may be able to skip some of the hands on training. We know that some people are going to need that hands on training.
