

Sector III Building Collaborative Teams
Sector Coordinator, JoAnne Dixson

NOTE - The building level collaborative teams have been underdevelopment during 2014-2015 and the staff members have been developing relationships with educators within their assigned schools. The AEA team members have been participating in internal professional development to strengthen current skills and develop new comprehensive school improvement skill sets. Their skill sets will match the school level school improvement needs related to the 2015-2016 Iowa Department of Education “differentiated accountability” statewide roll-out.

Team	District Building Collaborative Teams	Literacy	Numeracy	Student Engagement	MTSS
