wisdomwhere™

Superior Flexibility and Performance for Professional Development Management

Wisdomwhere™ is Solutionwhere's highly flexible Professional Development (PD) Program Management System that stands alone or fully integrates with Coursewhere, our full-featured PD Catalog Management System.

Wisdomwhere™ helps you easily create and manage PD programs based on content or job description (literacy, provisional status, support staff, math, elementary, etc). Further, those programs and component activities can be as structured or as free-form as an organization, department, or an individual educator requires.

Because your PD programs are based on activities and delivery strategies as defined by your organization, they're guaranteed to meet your administrative needs and your learning staffs' specific goals no matter what the individual or group may require.

A strong approval-request system can be implemented for specific parts of a PD program as needed. For instance, staff

> **Whether at the state, regional or district level, Wisdomwhere™ is your online assistant for creating and managing effective PD programs.**

that want to attend an outside event like a conference, or take a college course, or read a professional book would provide information regarding that activity in a custom form that is specific to the activity type. The form can then be routed for approval to one or more people based on type of event, cost, job description, etc.

Ongoing oversight of core-based professional development is a key element of the staff assessment/training/feedback cycle. Wisdomwhere™ also monitors organization-defined milestones and sends alerts to supervisors and staff about overall program activity.

Wisdomwhere™ provides the flexibility and sustainability an LEA or service agency needs in an affordable, easy-to-implement solution. Please call us for a live demonstration.

WISDOMWHERE™ FEATURES:

- Match educator-goals and anticipated outcomes with post-training surveys and end-of-year reflections.
- Easily build structured PD activities or programs around required courses and workshops.
- Group-enroll staff by department, building, or job, or enroll individually.
- Enter and track staff through multiple PD Programs; First year induction, five-year certification, etc.
- Add activities on the fly to active PD programs.
- Active PD programs can be edited and updated.
- Mandate required activities and courses.
- PD program activity templates can be modified for individuals.
- Track any professional development activity and credits earned from other organizations.
- Cost/approval worksheets track budget versus actual expenses.
- Hard-copy reimbursement form comparing budget versus actual expenses.

APPROVAL REQUESTS - UNLIMITED APPROVAL CHAIN

- Any in-house workshop or online course.
- Any outside event (conference, college course, etc).
- Any non-structured event (watching a video, reading a professional book, community service, supervisor or mentor meeting, etc).

- Custom approval forms for all PD activity requests.
- Approval chain or matrix may be created based on job, department, building, type of event, cost, etc.

EDUCATORS

- Self-enroll in pre-defined programs.
- Track current or past activity and view progress at any time.
- Create personal PD program with self-directed activities through approval requests.
- On-line reminders about login ID and E-mail help for passwords.
- Automatic milestone reminders.
  Much, much more!
